Aleia iacta est

Difficulty: Medium

Requirements: Man, standard library

Aims: Get used to man

To solve the following tasks, you need to use some functions that may be new to you. No explanation is given on them, use *man* to find out how they work.

- Write a program that simulates a dice using the rand() function.
- **Experts**: Simulate "real" randomness that cannot be recreated.

Hints

- have a look at srand() as well.
- Experts: Choose the seed for srand() dynamically.
- Experts: What value is different every time you start the program?
